The Activities of the Chinese Also of Nuch Hindrance to
the Russian Leaders--Heavy Losses
Are Reported.

[Special by Scripps-McBee.]
New Chwang, July 14.—Heavy fighting was heard in the southwest every day and night for several days past. This is known to indicate the Russians are offering a stubborn resistance to the Japanese advance. It is reported the Japanese have occupied Yui Kow.

Take a City
Tokio, July 14.—It is reported the Japanese have occupied Yui Kow without any resistance from the Russians.

Japs Retreat
St. Petersburg, July 14.—A dispatch received today reports the force of Japanese which began the march on Ta Sui Kio has returned to Kai Chow.

More Victories
St. Petersburg, July 14.—Gen. Sakharoff reports the Japanese force is advancing on Tas Chik Kio and has occupied the town of Kas Chik Kio.

New Chwang Next to Fall
St. Petersburg, July 14.—Colonel Novitsky of the general staff, in an interview today, says:

"The result of the loss of Kai Chow will probably be the evacuation of New Chwang. General Kuroki's position is more difficult than that which confronted Lord Roberts in South Africa. It is as if Lord Roberts received his supplies by rail via Constantinople, Cairo, and Central Africa. It will be a long time before General Kuroki will have enough supplies and men to assume the offensive. In the meanwhile he will have to fight rear guard actions, perhaps giving up important positions like New Chwang, which are of vast importance to him."

Begin to Flee New Chwang
New Chwang, July 14.—Chinese coming in from the country report the Russians everywhere retreating before the Japanese, who are soon expected here. Active preparations are being made for defense at Ta Sui Kio. The situation is brisk, and many ships are in port.

Jap Generals Corral Enemy
St. Petersburg, July 14.—Steadily and cautiously Gen. Oku's army from the south and Gen. Nodzu's army from the east are closing in upon Tatchekiao, where Gen. Kuroki is reported to be entrenched. One hundred and thirty thousand men are involved in the movement. The next few days will determine whether and to what extent Gen. Kuroki intends to make a stand at Tatchekiao, the possession of which by the Japanese would compel the immediate evacuation of New Chwang.

The outposts of the armies are scarcely fifteen miles apart. The slowness of the advance is apparently due to the natural difficulties in the way of a rapid movement of the Japanese.

MONONA ASSEMBLY OPENS NEXT WEEK

But Few Campers Have So Far Sig-
nified Their Intention of At-
tending the Session.

[Special to The Gazette.]
Madison, Wis., July 14.—The Monona Lake assembly will open in this city next Tuesday and continue till July 20. From present indications the assembly will be a complete failure. Only 150 applications have been received by the management for the renting of tents while in former years the number was 500 or more. The program is by far less attractive than that of former years. Few good speakers have been engaged as the management wishes to save expenses in order to reduce the assembly debt. A big political debate was planned but this scheme had to be dropped because Secretary J. E. Mosley was unable to secure political men of national reputation for the small influence that he offered. Grantor's famous Italian band is practically the only good attraction that will be at the assembly this year.

GOVERNOR CHOICE IN HIS DEBATES

He Will Not Speak at the Madison
Chautauqua This Summer--
Has Personal Reasons.

[Special to The Gazette.]
Madison, Wis., July 14.—Because no suitable opponent could be secured to vie with Governor Robert La Follette in a joint political debate, Secretary James E. Mosley of the Monona Lake assembly has announced that there will be no spellbinding contest at the Madison Chautauqua this summer. Mr. Mosley negotiated and corresponded for a team of national politicians to furnish the political debate and failing in this because the campaign will not be on until after the close of the assembly, he besought Governor La Follette to put up one end of a great argument of world-fighting on the theme of Wisconsin politics. It is understood that although the governor was perfectly willing and even desirous of debating, that he limited his willingness to the selection of some big run of the stalwart camp for his opponent. Secretary Mosley refuses to give out the names of those whom the governor preferred to meet, but it is understood that the list included the names of Senators Spooner and Charles, Congressman J. W. Babcock, chairman of the national republican congressional campaign committee; Col. Henry Casson, sergeant at arms of the house of representatives; Congressman Edward S. Minor and other able stalwart leaders in the republican faction in Wisconsin that is fighting Governor La Follette and his faction to the death.

BOYS DARE COMPANION TO ATTACK WASPS' NEST

Eight-Year-Old Lad Accepts the Chal-
lenge and Is Probably Fatally
Stung as a Result.

Morristown, N. J., July 14.—Because he took a dare, Harry Grimes, 8 years old, may die as the result of wasp stings. While playing with several other boys he copied a wasp's nest and began throwing stones at it. When the wasps came out the lad ran away and the other boys taunted him with being a coward. They dared him to knock the nest from the building. Grimes accepted the dare, and pouring a stick at the nest, soon had it dislodged. It struck the ground and a thousand wasps swarmed out and surrounded him. He screamed and ran, but the insects covered him thickly from head to foot, and stung him all over his body. Before he reached home his eyes were closed and his body began to swell frightfully. The boy is so filled with the poison that his death is almost certain.

PICNIC PARTY ENDS IN DEATH

Twenty Were Killed and Sixty-Eight Injured
in a Collision Last Night.

TWO BODIES WERE DISMEMBERED

Train Had Been Switched on Wrong Track--The Death
Scenes Were Awful to Witness: Scenes at
the Morgue Pitiful.

[Special by Scripps-McBee.]
Chicago, July 14.—Twenty persons were killed, sixty-eight seriously injured and half a hundred others scratched and bruised at 6:55 o'clock Wednesday afternoon at Glenwood, Ill., when an excursion train of eleven coaches on the Chicago & Eastern Illinois railroad, bearing 651 members of Doremus Congregational chapel of Chicago crashed into a loaded coal train.

The excursion train left the picnic grounds at Momence, Ill., at 6 o'clock. The entire day had been spent at games and outdoor pleasures, and the tired crowd of men, women and children was being hurried to their homes in the vicinity of the church at "Thirty-first and Butler streets."

The engine, baggage car and one passenger coach were crushed in the collision. All of the dead and most of the injured were in the first coach. Dead in First Coach.
Orders misunderstood, or negligence of the train crews, is believed to have been the cause.

The excursion train, north bound, had been transferred to the south bound track, which was supposed to be clear.

All of the dead and injured were placed on board special trains and brought to Chicago, arriving at Englewood station at midnight. The injured were removed to

Englewood Union hospital, while the dead were taken to Thirty-third street on the relief train, and from there removed to the morgue, where several thousand anxious relatives crowded to look for their loved ones.

Heating Scenes.
The scenes attending the identification of the bodies and the receiving of the injured from the train has seldom been equaled in Chicago.

There are three bodies at the morgue that have not been identified. One is that of a small boy. The others will probably never be identified unless by the scraps of cloth that cling to the pieces of flesh now in the morgue. On one slab are the arms and legs of a small boy, while on another are the legs, one arm, and part of the trunk of a man.

List of the Dead.
Fred Pantzars, aged 10; Walter Gerding, aged 15; Mrs. Gerding and baby girl daughter; Lena Hiltis, aged 14; Andrew Kramer; Mrs. Ellen Landers, Mrs. Mary Cherry, Mitchell, boy, son of John Mitchell, superintendent of Sunday school; William H. Meyer, aged 12; John Poduka, aged 8; Mamie Poduka, aged 3; Mrs. E. E. Palmer, Emma Palmer, Miss Leoline Palmer, two unidentified boys, who died at the Englewood Union hospital shortly after their arrival; two unidentified bodies, at the morgue.

PACKERS WILL MEET STRIKERS

Speedy Settlement of the Trouble Is
Expected--Both Sides Are
Pleased.

[Special by Scripps-McBee.]
Chicago, July 14.—This morning the leading packers met in a private conference at the stock yards to discuss plans for a peace meeting with the leaders of the striking meat workers. If the packers accept the terms of arbitration proposed by the strikers and John the conference it will be held later in the day. If agreement is reached the men will probably go back to work pending the outcome of the arbitration.

The packers' private conference this morning decided to meet with the union leaders to consider a plan of arbitration. The meeting was held at two o'clock this afternoon. Both sides seem pleased with the prospects of a speedy settlement of the strike. Everything is quiet at the stock yards.

LA FOLLETTE IS NOW VERY GLOOMY

Hears That Bryan Will Come to Wis-
consin to Campaign for
Democrats.

Milwaukee, Wis., July 14.—Secretary Bentley of the republican state central committee estimates that after giving the democrats and the La Follette faction the fullest possible vote next fall, the state will be safely republican when the votes are counted.

He expects that there will be about 45,000 votes cast. Of those, he says, the normal democratic vote is about 150,000. Mr. La Follette, at the most liberal estimate he can conceive, may be able to get the votes of 120,000 republicans. This will leave 15,000 regular republican votes, or a majority of 65,000 over La Follette and 15,000 over the democratic nominee.

It is possible, he says, that La Follette may get the vote of perhaps as many as 40,000 Bryan democrats, who are disgruntled at the nomination of Judge Parker, but it is hardly probable in the face of the announcement made today to Bryan will campaign in Wisconsin.

The announcement that Mr. Bryan is coming to Milwaukee to campaign for democracy will be a great disappointment to the La Follette "reform" leaders. With Mr. Bryan in the field as a campaign orator against them the La Follette "reformers" see their visions of securing the Bryan democratic vote to the governor scattered to the four winds.

NEW INDUSTRY IN BASKET WEAVING

JANESVILLE HAS PLENTY OF THE WILLOWS REQUIRED.

BUREAU OF FORESTRY TALK

Tell of the Methods Used by Colonies Who Make the Baskets for the Market.

Janesville people who have large willow bushes in the neighborhood of their homes may be interested in the following report of the department of agriculture regarding the weaving of willow baskets. Janesville has many willow trees, particularly along the river banks and use might be made of these, which would build up a profitable industry right here at home.

The culture and industry of basket weaving have not attained the perfection and profit that mark the industry in Europe. This is for several reasons, the most important being the relative compensation of labor and the failure of the American grower to adopt the most improved methods. The growing, harvesting, care, and manufacture of willow require manual labor wholly unassisted by machinery. The cheap labor of Europe has grown willow and woven it into baskets at a profit. Impossible with us and our better paid labor. American ingenuity has still further complicated the issue by producing a cheap split wood basket to take the place of the more expensive and durable willow. Thus an industry of good possibilities is languishing.

The bureau of forestry has taken up the matter and given it careful study. Its expert has thoroughly investigated the methods of culture and manufacture both in this country and in England, Germany and Poland. In addition, the bureau has established a willow plantation on the department's experimental grounds near Washington, D. C., where the best species of basket willows were set out on different soils and spaced in accordance with different methods of planting. The results of this research will shortly be made known by the bureau in a bulletin entitled "The Basket Willow."

The bureau's purpose was to discover a means of reducing the cost of the raw product, peeled and unpeeled willow rods, and also of improving the quality. This has been definitely ascertained. It is entirely a matter of properly regulating the distance between the sets in planting, care in cutting the crop of rods, and in selecting better species and strains of willow. The custom has been to plant in rows 2 feet apart, spacing a foot in the rows between the sets. A far better plan is to put the rows only 20 inches apart, and reduce the distance between the sets to 9 inches. When this is done and the crop is cut close to the ground the rods will be longer and less branched, the plants longer lived, and the yield per acre much greater. The initial cost is slightly higher than under existing methods, but this is more than offset by the increased returns. At present, an average production of six tons of green rods per acre is exceptional; by the method now advocated by the bureau eight or more tons per acre of better rods can be produced. When to improved methods of culture the advantages from a choice of better European varieties of willows for planting are added, the result will be a marked reduction in the price of raw material and a distinct betterment of the condition of both the producer and manufacturer.

The growing of basket willows was introduced into the United States some sixty years ago by German basket makers, who settled in western New York and Pennsylvania. They first attempted to use wild willows, but soon abandoned these as impracticable and imported the purple or Welsh willow. They grew the rods and the manufacture into baskets was made profitable by whole families engaging in the weaving. Their product has always been a cheap variety of baskets, since they use steam in peeling the rods, which gives them an undesirable dark color. When the industry was extended farther west and down to the Baltimore district, Maryland, hand-peeled rods were used and a much higher grade basket manufactured. But this country, in the extensive use of willow ware, has never approached Europe, where are found not only heavy farm baskets and receptacles made of unpeeled willow, but market, clothes, and fruit baskets of peeled willow, furniture, hampers, and trunks, and most artistically wrought split willow were designed for countless other uses. Could all these be as cheaply manufactured here as there, their use by us would doubtless be as extensive as that across the sea. For willow ware is not only prettier than its substitutes, but what is still more important, lighter and more durable.

Another use for willow in this country is found in the growing demand for willow furniture, which has become fashionable in the North, while in the warm climate of the South it is rapidly taking the place of upholstered furniture. Good wages can be paid in the manufacture of this kind of furniture. It is a profitable industry and steadily growing in importance, while willow basket making has barely held its own in the last decade. The demand for furniture material has been met to this time chiefly by importing French rods. But this can be changed if our own willow growers will adopt more scientific methods of culture and market their rods only after they are well seasoned—not soon after cutting, as is now customary.

In the bulletin the bureau will issue in a few days every aspect of willow culture and manufacture is exhaustively treated. The character of the ground to be used, preliminary cultivation, planting, weeding and cultivation, cutting, sorting, peeling, and packing, all are discussed thoroughly, and advice as to each branch of the work is clearly given. The virtues and defects of the different species of willows suited to basket manu-

facture are described. In addition in the spring after harvest and before the new crop season opens is a new aid in protecting the hots from insects and in fertilizing the sets especially advised by the bureau. A valuable part of the bulletin is a chapter on insects injurious to basket willows, prepared by the bureau of Entomology. This not only describes the insect enemies of the willow, but also gives methods for their control. The bulletin should prove invaluable to all present producers and manufacturers of basket willow, and of great interest to farmers who desire to add willow growing to their other crops. It can be obtained by application to the Forester, United States Department of Agriculture, Washington, D. C.

STRANGE FANCY OF ISRAELITES

Think the Automobile Signifies the Charlots of the Prophets' Views.

Recently two disciples of the sect called Israelites, who make their home at Benton Harbor, visited Janesville. Their paper known as the St. Louis Messenger, prints the following on autos and the gramophone, to illustrate the end of the world is near:

An electric car in high speed experiments on the Marfieds-Zossen line near Berlin, Germany, October 22, 1902, attained the speed of 130 25 miles an hour. This is surely wonderful, and is in fulfillment of the scripture, and that we are now living in the day of the preparation of the Lord, when these wonderful modes of transportation should be invented. Nahum, the prophet, prophesied of these things in 713 B. C., and gave a vivid description of these electric cars which are in our streets today. Just prior to the coming of the Lord, the chariots should be with flaming torches in the day of his preparation. The chariots shall rage in the streets, they shall jostle one another in the broad ways; they shall seem like torches (take notice of the electric car on a dark night and see if they do not look like a flaming torch) and they shall run like lightning. This also is the fulfillment of even a latter day prophecy by a woman named Joanna Southcott, of London, England, who prophesied in 1792, she being the first angel of the seven, which were to sound according to Revelations 8th, 9th, 10th chapters. She said that carriages should run without horses, and ships without sails, and is this not fulfilled? and the time is at hand when there shall be no hire for the horse during the millennium, that great day of rest.

This is only one of the many signs and wonders of the second coming of our Lord. Another wonderful thing is in the prophecy of 2 Esdras 3, 27. The Lord asked Esdras to show him the fringe of a voice, and then I will declare to thee the thing which thou lovest to know. And now we have arrived at the time when the fringe of a voice is produced in the graphophone. Another more wonderful thing still is the wireless telegraph system, wherein a message can be sent across the ocean without wires, which has been proven to be success. There are many more wonders that could be brought forth, showing we are living in the day of this preparation. So you have these signs as a warning of the coming of the Son of man. When ye see all these things, know that it is near, even at the doors.

Walter Schick who resides at the corner of Galena street and Center avenue has returned home for a brief rest after three months' arduous labor on the exposition buildings at St. Louis. Among other contracts which he executed was the gliding with gold leaf at a cost of \$2,000 of the dome of the Missouri state building. Extensive interior decorating work in the agricultural and electrical buildings was also executed by him and elicited fulsome praise from the exposition officials. Mr. Schick will presently return to St. Louis to take charge of some extensive work in re-decorating.

THREE GIRLS ARE BURNED TO DEATH

Terrible Accident to a Family at Sharon, This State—Children Suffered Frantically.

One of the most terrible accidents recorded in years is reported from North Sharon, involving the death of three daughters of a well known farmer. C. B. Holt, who lives within a few miles of the village of Sharon. The children were alone in the house over night and the eldest daughter had arisen to get breakfast, leaving her two younger sisters in bed. In order to hurry the fire in the cook stove, the girl who lay in the way was 18 years of age, poured some kerosene on the fire, which was immediately followed by an explosion that ignited her clothing and scattered burning oil about the kitchen. The unfortunate girl ran from the house to the yard where, overcome by her terrible burns, she sank helpless to the ground with every particle of clothing burned from her roasted body. The flames in the kitchen spread rapidly and when the neighbors saw the fire and hurried to the scene, the house was a seething mass of fire and the two children within beyond help.

The parents were immediately apprised of the terrible calamity that had befallen their children. It is said that the mother will probably lose her mind in consequence of the terrible fate of her three daughters. It is thought by some that the girl made a mistake and used gasoline instead of kerosene when she attempted to light the fire.

GENERAL TALK OF REPUDIATION

MANY DEMOCRATS PUBLICLY ANNOUNCE CHANGE OF FAITH.

LEAVING DEMOCRATIC PARTY

Cannot Swallow Democracy Mixed with Hillism—Announce Intention to Vote for Roosevelt.

The Chicago Chronicle opened the democratic landslide towards the republican camp and since their rabid denouncement of the democratic party prominent papers and prominent men all over the country have expressed their opinion in decided terms in favor of the republican doctrine. The following is but a partial list of the newspapers and prominent men all over the country who repudiate Bryanism and Hillism in the strongest terms. Already the campaign of the democrats has begun, but instead of trying to attack the republicans this campaign has developed into a campaign of reconstruction of the democratic ranks in the hopes of having a solid front when the campaign really comes. The statement of Bryan that no self-respecting democrat could support Parker and his promise of active support of him is a question which is hard for the managers to explain.

Benton Harbor, Mich., July 14.—Edward E. Jarvis, founder of the Benton Harbor Times, the only democratic weekly in this county and one of the most prominent democrats in this section, publishes an editorial in which he bolsters his party's presidential ticket.

"There is no difference in the democratic and republican forms," he says, "the only difference being in the candidates. Mr. Roosevelt has done many things right, but I do not agree with him in all. However, the money power cannot handle him. If Roosevelt had taken their orders Belmont and his crowd would not have tried to reorganize the democracy in the interests of the money power. The facts prove conclusively to me that money could secure no pledge from Roosevelt, but Parker was willing to enter into an agreement with Wall street. Therefore I must vote against the ticket."

(Special Telegram.)
Charlotte, Mich., July 14.—George A. Perry, editor of the Tribune, who went out of the republican camp in 1896 with the Teller silver faction, now comes out squarely for Roosevelt and the entire republican ticket. Mr. Perry's influence in the campaign of 1896 was given credit for landing the entire democratic county ticket here, the first time that ticket was ever elected in this county.

(Special Telegram.)
Ionia, Mich., July 14.—Some of the leading democrats here say they can stand for Parker and will vote for Roosevelt. Several think Parker too closely allied with the trusts, and too easily the main issue.

(Special Telegram.)
Three Rivers, Mich., July 14.—At least one-half of the old-time democrats of this city and vicinity will not support Parker.

(Special Telegram.)
Flint, Mich., July 14.—Judge H. R. Lovell says: "Regarding Parker's nomination I have not much to say, but I would rather have seen the nomination go to someone else."

(Special Telegram.)
Bellaire, Mich., July 14.—Several prominent democrats in this section declare they will not vote for Parker. They will vote for Roosevelt instead.

Debs Angry
Terre Haute, Ind., July 14.—Eugene V. Debs, socialist candidate to president, said today: "Six weeks ago William J. Bryan publicly stated that no self-respecting democrat would support Judge Parker, the tool of the trust and the money power. Mr. Bryan is now supporting him and in so doing is providing a political degenerate."

Mr. Debs says Bryan will find it a difficult task to explain his position before the people in the campaign. He also said that Henry G. Davis inspired the action of the United States court of West Virginia in enjoining him and others leading in the miners' strikes in 1897 from walking on the highways.

LABOR LEADERS AT GREEN BAY CONCLAVE

Many Questions Vital to Unionism Are Being Considered—Janesville in Race for Next Meet.

Janesville's claims for the next annual meeting of the State Federation of Labor in July, 1905, will be considered with those of a score of other cities at the session now being held in Green Bay. General Organizer Frank J. Weber presented his annual report yesterday and launched a severe attack on the child labor system and the men behind it. With regard to the Colorado situation he maintained that the infliction of law on offending strikers rather than an appeal to intimidation was the right method of procedure. Strikes, he said, would ultimately be abolished by the intelligent use of the workingman's voting power. Secretary-Treasurer Fred Brockhausen made his annual report and urged the election of friends of the union movement through the socialist party. He deplored the condition of trade unionism at Beloit.

He was badly injured while chopping wood at Delavan and is now trying to reach the Dane county poorhouse. The man is sixty-five years of age. He was sent here from Clinton and probably will be forwarded to Madison by the local officials.

News for the Railroad Men.

Brakeman, William Dee, Jr. of Chicago is spending a few days in the city visiting relatives and friends.

Traveling passenger agent, James Hurley of the Lake Shore road spent yesterday in the city on business.

The Barnum & Bailey advertising car No. 1 arrived in the city over the North-Western road this morning and the men are billing the city today.

Tomorrow morning the Chicago & Northwestern road will run an excursion train to Lake Geneva, the train leaves this station at 7:40.

The Minneapolis and Rainy River railway, capitalized at \$1,000,000, and with headquarters in Minneapolis, has filed incorporation papers with the secretary of state. The line of railway of the company is to extend from Minneapolis to a point on the Rainy river in Itasca county. From there a branch is to go northwest to the Big Fork river.

R. F. Schorstein of Chicago, the new traveling passenger agent in that territory for the Erie railroad, was in Milwaukee yesterday, meeting Milwaukee railroad officials. With him was D. M. Hoyman, general western passenger agent for the Erie.

The gross earnings of the Milwaukee road for June were \$10,835, an increase of \$18,355. Since Jan. 1 the earnings were \$163,250, an increase of \$69,529.

The St. Louis extension of the St. Louis & San Francisco road will be completed by Aug. 1. Night service will then be established between Chicago and St. Louis in each direction. The new Chicago-St. Louis line will be 290 miles long.

The Cincinnati, Hamilton & Dayton-Pere Marquette consolidated system has ordered 5,000 freight cars and 40 locomotives to meet the demands of the increased traffic which the consolidation is expected to bring. The cars will be built by the American Car and Foundry company, while the American Locomotive company has received the order for the engines.

"The report that the Milwaukee road is contemplating building a line to the Pacific coast or is purchasing property for that end is absolutely without foundation," said President A. J. Earling of the Chicago, Milwaukee & St. Paul, who was in St. Paul yesterday. "We have absolutely no plans under consideration for the extension of our line nor are we considering the purchase of other lines." Mr. Earling also denied specifically the rumors of the Milwaukee acquiring the Wisconsin Central or the Chicago Great Western or of contemplating building a line to the head of the lakes. When asked whether the recent heavy purchases of property in Tacoma and Seattle were in the interest of the Milwaukee road as rumored, Mr. Earling did not make a direct reply. "We have no plans for a line through to the coast," he said.

MARSHAL HOGAN IS STILL VERY WEAK

Extraction of Teeth Understood to Have Been Cause of His Recent Set-Back.

Chief of Police Hogan's recent trip to St. Paul was made for the purpose of having some teeth extracted, an operation which seemed imperative but which had of necessity been deferred. It is understood that this was responsible for the loss of blood which greatly weakened him. Mrs. Hogan writes to friends that her husband's condition has not improved since her arrival in St. Paul. If he rallies from this last set-back the chief will return to Janesville.

MARCOONS ARE PLAYING THE CHICAGO UNION GIANTS

This Afternoon—Janesville Plays Rockford New Drexels Sunday.

At Athletic park this afternoon the Clinton Maroons are playing their third game with the colored team from Chicago known as the Union Giants. On Sunday the Janesville team will meet the Rockford New Drexels at Yost's park. Palmer and Broughton will do the battery work for the locals and Johnson and Carlson for the Forest city nine. Beloit has been trying to get another game with Janesville since its defeat by the score of 7 to 6, and despairing of success has at last come out with a challenge to play for any part of \$100 a side one game or a series of three.

Janesville hunters will soon have annual contribution into the game warden fund of the state. Fifty thousand hunting licenses have been printed and are now at the state game warden's office ready for distribution to the different county clerks. Then the work of the game wardens in the interests of perpetuating their tenure of office by advocating the third term will begin, the machinery being suitably lubricated by the coin of the hunter. Already a few licenses have been issued. The color of the resident licenses this year is yellow. On the back of each blank is printed the dates of the open seasons for game and also the law, which requires that all persons who start fires in the woods must extinguish them.

Forty Years Ago...

Janesville Daily Gazette, Thursday, July 14, 1864.—OF THE FIELD.—Dr. A. Burbank, who recently removed to this city from Avon for the purpose of practicing his profession, has just been commissioned surgeon of the 33d regiment and will therefore send his family back to Avon, while he joins his regiment in the field. The wife was at LaGrange, Louisiana, when last heard from but is now on the hunt after the rebel Forrest. The doctor was a member of the last legislature from Avon district in this county, and has been active service in the field as first assistant surgeon of the 22d regiment under Col. O'Day. As this last appointment came to the doctor entirely unexpected on his part, his commission may be regarded as a high compliment to his personal and professional merit.

Manufacturers in Janesville.—In common with many other western cities, Janesville is altogether too deficient in manufacturing establishments of various kinds. We have an abundant water power and ample facilities for marketing whatever goods might be produced, and there is no valid reason why our city should not be noted for its manufactures as it now is for its beauty, activity and intelligence. It is true that we now have several flourishing mills, a seed drill manufactory, an excellent machinery shop and foundry, two woolen mills and quite a number of other manufactories, but not a tithe of what our magnificent power would warrant. Such were our reflections when he looked through the woolen mills of Messrs. P. A. Wheeler & Sons, a day or two since, and saw the busy hands and the hum of the restless machinery. In this establishment there are at present employed fifteen or twenty hands, and work goes on night and day with no respite, save on Sunday. It is the purpose of these gentlemen we understand, to enlarge their mill this coming fall to double its present size, and capacity, making it one of the most extensive in the state. Every enterprise of this kind is a source of social wealth in a community and cannot be too strongly encouraged.

Every Man Taking a Horn.—Let no one with temperance proclivities jump to conclusions on reading the above heading, and assume that every man in this fair city has given up himself to inordinate gazing. Such is not the fact—as we know of it, but the truth is that every man of the new brass band has taken a horn, and some other instrument of the kind, and is practicing vigorously to perfect himself as a member of the organization. We shall soon have a good band here as can be found anywhere. We are decided in favor of this kind of dissipation.

VERDICT OF THE PARTY

From the report of the Committee on Credentials to the REPUBLICAN NATIONAL CONVENTION, which was unanimously adopted by that convention, June 22, 1904.

Your committee report it to be their final judgment that the convention which elected said John G. Spooner, J. V. Quarles, J. W. Babcock and Emil Daensch as delegates at large, and their alternates at large, to this convention from the state of Wisconsin WAS THE REGULAR CONVENTION OF THE REPUBLICAN PARTY IN WISCONSIN, and that the delegates elected by it are the regular elected delegates at large from the state of Wisconsin to the republican convention, and, as such, are entitled to seats in this convention.

THE DEMOCRATIC PARTY.

The democratic party is to be congratulated. After eight years of internal strife it is again in control of the conservative element, and Bryanism is a thing of the past. While it is more than likely that Bryan and Pettigrew and that class of republican renegades, who drifted into populism, and then were captivated by the free silver craze, will not be loyal to the party, yet most of their followers will return to the fold.

It is better for the nation to have two strong political parties, than to be top heavy with one party. The spoils of office are always unsavory, and political corruption is the rule and not the exception.

With the democratic party reorganized and under the leadership of a man like Judge Parker, the republican party can no longer rest on its laurels, and under the incentive of a lively campaign results will be watched with interest.

The democratic party, at its best, has but little to offer. Under the so-called Cleveland administration the party was in complete control, and it demonstrated beyond question, that it was totally incompetent to conduct the affairs of a great nation.

A careful perusal of the St. Louis platform will convince any intelligent reader that the party has made no forward stride. It is the same free trade doctrine, the same line and cry about militarism and abolitionism, and a straddle on the money question.

The American people are progressive, and the republican party is distinctly American. Its record, during the past eight years, is a record of progress. Under its wise provisions, confidence was speedily restored and then the forward march commenced and there has been no retrograde movement.

The people are satisfied, and president Roosevelt will succeed himself when the popular verdict is expressed in November. The democratic party gained a victory within its own ranks at St. Louis, and the party is again capable of self government, but this is all that it accomplished.

JUDGE PARKER.

Judge Parker, the democratic nominee for president, is a gentleman farmer, as well as an able jurist. He belongs to the old school of democrats and his nomination is highly satisfactory to the conservative wing of the party. He possesses the courage of his convictions, as was evidenced by his telegram to the St. Louis convention.

He is a farmer and a lawyer, but not a statesman. His position as judge during the past fifteen years, has made him a silent spectator, and he has had but little to do with the busy activities of national life.

He is as incompetent to pick up the reins of government, and direct the affairs of government, as would be a college professor, or any other man, whose line of work was directed in a single channel.

Judge Parker is a good man, but not a great man. His name was never mentioned beyond the borders of his own state sixty days ago. He was selected for the important office of president because the state of New York demanded recognition, and not because he possessed any peculiar qualifications for the position.

The democratic party has scores of men who are statesmen, and who enjoy a national reputation. Any one of these men would be stronger as a candidate than Judge Parker.

General Grant had the reputation of being a silent man, but he was always doing something. The people knew him and honored him, not because of what he said, but because of his deeds.

Judge Parker is said to be a silent man, but he is in position now where silence is not an element of strength. If the people are to have confidence in him, they must know him. If he has any well defined policy on questions of national importance it must be expressed in terms that will not admit of doubt.

He is handicapped by a party in which the public has but little confidence, and unless he develops a personality that is stronger than his party he will never be known as a leader. Bryan was able to accomplish this, but the nation has never known but one Bryan. The people will be interested to hear from Judge Parker.

Once more the country is stirred up by the giant strikes in the stock yards and as usual the public has to pay the freight by either going without meat or paying a bigger price for it.

Wisconsin would like to arrange for a regatta in the west and not have to go clear east to row and be beaten each year. It would be cheaper to get a new coach or stay at home.

That question of a gold standard has settled itself say the democrats. Yes, it settled itself by the aid of republican common sense and good judgment.

The U-Pin-It Hook and Eye company is to move to Kalamazoo from Janesville, says an exchange. Have they ever moved to Janesville from their last stopping place?

The modern Utopia of dreamland as depicted by the democratic band wagon orators will never be reached with the present crew at the main instruments.

Bryan nearly managed to control the St. Louis convention and although beaten at every move, he now says, like his dear enemy, Dave Hill, "I am a democrat."

By and by the democrats will give up trying to control the country with a string of populists and hangers-on trailing after their band wagon.

How will democracy swallow Davis, the multi-millionaire and president of railroads when they have complained of Morton a railway official?

Senator Elkins thinks his father-in-law, Davis, is a better man than Parker, but does not think either of them has a ghost of a show.

Democratic papers do not like the idea that the Chicago Chronicle has awakened from its slumbers and come into the fold.

A band concert in the park on a Sunday night might be interesting to many and would certainly not annoy the people who live around this green spot.

Bourke Cochran, the orator from Tennessee, now tells the gentle braves of his tribe that he can vouch for Mr. Parker.

President Roosevelt even combines work with pleasure and is now planning for the fall campaign while resting at Oyster Bay.

Great credit is due the finance committee for their able handling of the city money and general prospects for the future.

Three elms, a Fourth of July procession and celebration and now a trip to the Pike, makes Janesville prominent to say the least.

Judge Parker takes his swim in the Hudson each day despite his great national prominence.

Where is the dog catcher provided by the recent ordinance? Has he been appointed yet?

Janesville has come to the front again in base ball matters.

Police matters seem to be disturbing many people these days.

Madison is having as hard a time with criminals as Janesville and they have more police too.

Socialism is all right to read about but it is a poor thing to put into practice for daily use.

Bryan has gone back to Lincoln and the people of St. Louis are sighing with relief.

Are all the dogs in Janesville tagged yet?

The daily fluctuation of the thermometer amuses many.

PRESS COMMENT

Merrill Advocate: What a trifling thing—a mere convention—changes the blissful feeling of a "favorite son" to the tired one of being "a son of a gun."

Pond du Lac Commonwealth: Gov. La Follette's decision to stump the state in an auto, is another evidence of the admiration he bears for the machine in politics.

Hudson Star-Times: A political leader who gives out in advance that he will not abide by the will of his party nor the decisions of the courts of the land is an outlaw and not entitled to the respect of fair minded people.

Milwaukee Sentinel: President Seligman says "no man has a right to lead a single life." Big Jellyfish who have been doing Hyde stunts on the sly may therefore cheer up.

Baltimore Sun: The Japanese and Russian names one sees in the dispatches suggest the sweet voice from a frog pond on a summer evening: Tenoo—Kuroki, Kuroki, Kuroki; fubetto—Kuropatkin, Kuropatkin, Kuropatkin; bassoo—Togo, Togo, Togo!

La Crosse Chronicle: While Judge Parker must have been pleased to hear from Bishop Grafton that the Episcopalians of Wisconsin were praying for him, he might have been induced to make some sort of reply if the bishop had assured him the Episcopal vote of the state.

Chicago Chronicle: Bourke Cochran's enthusiasm in championing a ticket which he had declared twenty-four hours previously could not be elected merely sustains the assertions of John Dalzell, who maintained that the enthusiasm of Mr. Cochran for any position could always be aroused by the presentation of a satisfying and substantial consideration.

Superior Telegram: The silver leaders had always agreed that if the gold standard was kept out of the platform they would support the nominee. The gold standard leaders are satisfied with a declaration from Judge Parker. As a political maneuver the whole thing was very well planned, but it looks as if its results at the polls will fall short of democratic expectations.

Oshkosh Northwestern: In sending Bryanism to the rear the democratic party has taken a step in advance but in taking the creation of David B. Hill for its standard bearer, the party has slipped back at least two paces for the one it has gained.

Reine Journal: "Conscienceless robbers" were the stinging words with which Bryan scored the convention for endorsing the robbers of the state central committee of delegates rightfully elected. It was the old story of a state central committee usurping powers not theirs by right and of depriving men honestly elected of their rights as delegates.

Seranton Tribune: Parker's telegram must have been gall and wormwood for David Bennett Hill, who had pledged Parker to accept any platform the convention might adopt if set him aside as the Parker leader.

IN MURDER OF JUNK MAN
 Arrested for Brutal Crime, Accused Criminals Incriminate Each Other in Killing.

Brooklyn, N. Y., July 14.—Charged with the double murder of the miser, fence, and junk man, George F. Abbott, and his helper, Frederick Van Buskirk, who were found beaten and shot to death in Abbott's miserable hotel, Charles V. Johnson and Oscar Dalgren were brought face to face by the police, and immediately fell to accusing each other of the crime.

Johnson told Dalgren that he (Dalgren) had exhibited a new pistol and announced his intention of using it on Abbott. Afterward he saw Dalgren go into the junkshop, and soon heard a shot. Next, Van Buskirk, according to Johnson, passed four bundles out of the place to Dalgren.

Dalgren excitedly called Johnson a liar. Dalgren said Johnson had shown him the gun and a roll of money, and that Johnson had boasted of having hit Abbott with a brick in a sack and of having robbed him. Dalgren said Van Buskirk was murdered later by Johnson in a dispute over the spoils. Both men were arraigned in the police court and remanded for further hearing.

BARBER BOARD IN HOT WATER

HAVE SUMMONED THREE HUNDRED BARBERS TO MADISON.

MILWAUKEE MEN ARE ANGRY

They Think The Board Is Showing Them an Injustice in This Matter.

It may be possible that the state barbers' board has bitten off more than it can chew. They have summoned three hundred Milwaukee barbers to appear before them on Monday next at a room at the capitol building at Madison to show cause why their licenses should not be revoked and they be prohibited from practicing the tonsorial trade in the state of Wisconsin. The Milwaukee barbers are up and in arms. They feel that an injustice has been done them and that they are expected to conform to a ruling of the board which is unconstitutional. The feeling between the Milwaukee barbers and the state board has been strained for some time and the present move appears to engender more hard feeling. In speaking of the matter a Milwaukee paper said:

According to several barbers the state board of barber examiners sent notices to all barbers in the state during June that licenses had to be renewed before July 1. No mention was made in the notice of the penalty for failure to comply with the law, and while about 600 barbers in Milwaukee each sent \$1 each to Secretary W. H. Whitaker for the renewal, almost 300 barbers in the city and probably almost as large a number in the state failed to do so. In most of the cases failure to renew was not premeditated, and was due to carelessness, but barbers feel aggrieved over the second circular letter sent out by the board, dated July 8, and stating that licenses will be revoked in accordance with sections 9 and 11 of chapter 191.

Can't Reach Madison in Time. Owing to the notice that the men must appear before the board in person at 10 o'clock Monday morning, the barbers will be compelled to leave Sunday night for Madison if they intend to appear at all before the board in time to prevent any unfavorable action. The early train on Monday morning does not reach Madison until 10:50 o'clock, when it is feared that the board could have revoked some of the licenses.

If the state board decides to carry out its threat we have planned to ask for a temporary injunction to restrain it from preventing barbers without licenses from practicing. A Milwaukee barber said: "We can now close our shops on Monday to allow the men to appear before the board, and what is more, the men haven't the money with which to defray the expenses of the trip, which will include hotel bills, because there is no train leaving for Madison early enough Monday morning to bring them back in time."

Think Law Is Unconstitutional. "There is a general feeling among the barbers here that the law will not hold water anyway, and we have been advised by several attorneys that the law is unconstitutional. Barbers are no professional men. They are regular workers, and we have been informed that the state can not charge a fee of \$1 to allow the men to work no more than they can charge \$1 to allow any other worker to carry on his occupation. If the state board revokes the licenses of barbers in Milwaukee for failure to renew, it is certain that the matter will be taken to the courts and the law tested. Milwaukee barbers have consulted each other on the matter, and if the presence of an attorney at the board's meeting on Monday will do no good, they will take the case further."

It seems peculiar that officers of the board should accept money for renewals and keep it in their possession without promptly granting the renewals. Secretary Whitaker received money for the renewals of the licenses of the eight barbers whom I know of, but he stated in the letter in which he acknowledged the receipt of it, that he could not grant the renewal unless the board, at its meeting on Monday, gave him permission to do so. It appears that two members of the board decided to have the barbers who failed to apply appear before it on that day and Secretary Whitaker is being compelled to submit to the majority.

The state board, which is appointed by the governor, is composed of President Axel P. Donham, Secretary W. H. Whitaker, and Treasurer Henry Heme.

Ice Cream Social this evening at 101 East St. Everybody invited.

Buy Tobacco: George M. Decker recently bought 130 cases of 1901 tobacco from O. A. Peterson of Orfordville.

Picnic for the Boys: A. W. Slocum who has had twenty-five boys at work weeding his thirty-six acres of sugar beets gave a picnic for the young men at the four mile bridge today. Mr. Slocum has the largest single tract of beets in the county.

Whitewater Register: A good deal is made by the half breeds of the claim that Mr. Rosenbury, a stalwart member of the republican central committee at Madison, offered the ground that the half breed delegates from the counties of St. Croix and Grant be admitted to the convention. It is true that he made this motion, but it was after having been assured that the credentials from those counties were regular in every respect. But the truth was as afterwards discovered, that the credentials were so defective that they had no proper place in making up the primary roll. Had Mr. Rosenbury not been misled he would never have made the motion which the half breeds have so much to say about.

LOCAL OFFICES TO BE MERGED

The Hadden Roddey Company Will Now Be the Kennedy Company.

The local offices of the Hadden Roddey company have been closed since Saturday last and will not probably be opened until next Saturday. This is caused by the practical dissolution of the Hadden-Roddey company and the formation of a new company under the firm name of the Kennedy Commission company with E. H. Hadden as manager. A Milwaukee dispatch says the following: "The Kennedy Commission company, which filed its papers with the secretary of state yesterday, will this morning take possession of the old offices of the Hadden-Roddey company in the chamber of commerce building. The new company, which has a capital stock of \$25,000, has for incorporators, P. D. Kennedy, F. W. Hessel, G. P. Block and N. F. Kent. "While articles of incorporation were filed today, I am unable to make any statement to the public outside of the fact that we have leased the old offices of the Hadden-Roddey company, and that we shall start in business tomorrow," said F. W. Hessel, last night. "The new firm has no connection in any way with the old Hadden-Roddey company, inasmuch as we have simply leased its old offices. Mr. Hadden will be employed by us as manager."

MR. HEARST MUST PAY HIS BILLS

J. J. McNally Did Not Work in Janesville for Nothing—Wants His Money.

Janesville residents, particularly the democratic leaders, remember the meteoric visits of J. J. McNally during the past spring and his earnest espousal of the cause of William Randolph Hearst for the nomination of president. Mr. McNally paid Janesville several visits and entertained his democratic friends loyally. His last visit was on the day of the republican county convention and he spent most of the day driving through the city extolling the virtues of his candidates and complimenting the democratic leaders. Now, Mr. Hearst is being aided for sixteen hundred dollars by his erstwhile disciple, Mr. McNally wants to be reimbursed for his time and the money he expended and has filed his papers in the Milwaukee circuit court. He doesn't believe in glory as his reward and wants the owner of the yellowest of yellow journals to pay him and pay him quickly. Another Hearst leader, William J. Kershaw of Milwaukee, is more modest in his demands and thinks his efforts and time were worth only \$150 and for this sum he received a judgment in a Milwaukee justice court. It will be remembered that at the time of the democratic caucuses in Janesville several large claims of a possible suit against prominent politicians was talked of and Hearst was said to be back of the move. But the bluff came and not work and Mr. Hearst is free from any suits in Janesville.

MAY BE CHOICE OF DEMOCRATS FOR GOVERNOR

Robert B. Kirkland of Jefferson, Who is Visiting Judge Dunwiddie, is Prominently Mentioned.

Mr. and Mrs. Robert B. Kirkland of Jefferson arrived in Janesville this noon to be the guests of Judge and Mrs. H. F. Dunwiddie. At the recent democratic national convention in St. Louis when gubernatorial possibilities in Wisconsin were frequently under discussion Mr. Kirkland was prominently mentioned as the logical standard bearer in the race this fall.

For thirty years he has placed his services at the disposal of his party and the fact that upon no occasion during that period has he been found "sulking in the tent" has given rise to the sobriquet now applied to him—"The Gibraltar of Wisconsin Democracy."

Mr. Kirkland was a member of the state central committee and delegate to the national convention in 1888 and was a member of the committee which notified Cleveland of his nomination. During the latter's second term he was offered a foreign post but declined. He is considered one of the foremost law practitioners in the state. Mr. Kirkland is not seeking the nomination for governor and in fact is said to deprecate all efforts of his friends in that direction. If the demand for him becomes general, however, there are those who are confident that he will accept the call.

To Remove Warts. To remove a wart pour on it a drop of vinegar and then cover it with as much carbonate of soda as the vinegar will absorb. Keep it on ten minutes and repeat the application twice or three times daily. In a few days the wart generally drops off, leaving only a tiny white mark.

SENTENCED TO SEVEN MONTHS IN CO. JAIL.

Seven months in the county jail was the sentence meted out to John Atkinson, found guilty by the jury in municipal court of assault upon Fanny Burke. It is said that three members of the august twelve were in favor of giving Atkinson his liberty. Atkinson is a local character who has made the police much trouble in the past and there was visible disappointment over the light sentence he received. The prosecution sought to show that a prison sentence would be good enough for him.

Squirrels. To the Editor: Some three or four years ago Claude Cochran turned a large buck squirrel loose. It has frequented my trees for three years. It has been alone until this spring, when it found a doe and they seem quite contented and happy.

A friend of mine in Texas sent me a sure cure for potato bugs. It is a sure, simple and inexpensive. It is a strong decoction of Cedar sprinkled on the vines. This has been extensively used and proved a true remedy for the eradication of the vermin. Instead of scores of butterflies seen continuously I have seen just three poor specimens of the white, in and about my farm.

DR. WM. HORNE.

Japanese Actors. A few decades ago doctors were held in universal contempt in Japan. Their status gradually improved, and when Danjuro died, a few months ago, no less a personage than the Marquis de Vintimille wrote the funeral address. Danjuro was also noted as a poet, and for his beautiful penmanship. Not only the Japanese, but some Europeans and Americans, who heard him, considered him the greatest actor of his time.

FANATICS ON THE MARCH AGAIN

Most of the women and children are even now destitute of everything except a few rags which can hardly be called clothing, and it is feared that unless the fanatical journey can be stopped immediately many will die.

WHAT THIS MAN SAYS
Only Re-echoes the Sentiment of Thousands in Our Republic.
The Janesville reader is asked to thoroughly investigate the following: gentleman whose statement is published below will only be too pleased to answer any communication mailed to him if the writer really suffers from the annoying consequences which always attend inactive or weakened kidneys.

W. Sump, of 412 Euclid avenue, proprietors of the largest rock quarrying business in Beloit, says: "I had trouble with my kidneys for many years. It consisted mostly of a lame and aching back, and there were occasional when I had such severe attacks that I could not get out of the house for two or three weeks at a time. I was then practically helpless for it was painful to move. At other times it assumed a milder form, being a dull aching across my kidneys. I used medicines of different kinds but I never found anything that gave the satisfaction that Doan's Kidney Pills did. This remedy is worthy of a high recommendation and it is a pleasure for me to endorse it as doing all that is claimed for it."

Plenty more proof life this from Janesville people. Call at the People's drug store and ask what their customers report.

The tents were made from double filled heavy army duck by one of the best manufacturers in the country and are warranted not to leak. They have 6 ft. walls and each tent has four bedrooms and a hall. They have wooden floors, are carpeted, and each bedroom has full sized double bed, iron bedstead, good springs, wool mattress, blankets, etc. All brand new and furnished by Marshall Field of Chicago. PRESS COMMENT

New York World: With a play-room attachment to the department store and a checkroom for babies established at the church, city children will be provided for, except in minor detail of places where the fund-boards will let them live.

Boston Herald: Some of the tributes to Chairman Cortelyou, while handsomely and deservedly complimentary, show an inadequate appreciation of his experience in political affairs. Cortelyou is a good, clean man but he is no chicken. He knows men and things.

Kelcey News: The cheerful readiness of the Japanese soldiers to die rather than surrender is nothing but a form of Oriental suicide. It illustrates the fanatical spirit of the Orientals with which the western nations will sooner or later have to deal.
